Chapter-I

The Major Calamity

[ A marooned village ]

[ A major breach ]

#### 1. INTRODUCTION

Orissa has experienced nature's fury time and again. The state had encountered a severe drought during 2002-03. The Following table shows that the state has been devastated by disasters in the last ten successive years.

| Year | Calamity      | Districts Affected |
|------|---------------|--------------------|
| 1994 | Floods        | 17                 |
| 1995 | Floods        | 23                 |
| 1996 | Drought       | 28                 |
| 1997 | Drought       | 16                 |
| 1998 | Drought       | 26                 |
| 1999 | Super cyclone | 14                 |
| 2000 | Drought       | 29                 |
| 2001 | Floods        | 24                 |
| 2002 | Drought       | 29                 |
| 2003 | Floods        | 23+4=27            |
|      | [ Table -1 ]  |                    |

The socio-economic vulnerability of the people turned these hazards into disasters. With nearly 90% of the population living in disaster prone areas and about 66% below the poverty line, the coping mechanism of the state and its people is constantly under severe strain. Although several initiatives have been taken to prepare the community to meet the challenge posed by natural disasters, there is hardly any time left to complete the process. The frequency and gravity of the disasters give little scope to reap the benefits of these initiatives. Before recovering fully from the impact of the above disasters, the state faced floods in

- Floods
   Heat Wave
   Jul-Aug, Aug-Sept, & Oct.
   Mar- Jun
- Fire / Lightning / Meteor Falling
- Boat Accidents
- Localized Hailstorm / Whirlwind

#### 1.2 THE MAJOR CALAMITY: FLOODS-2003

The floods 03 had affected 27 districts in three phases. The first phase of floods in the month of July brought misery to the people of Bhadrak and Jajpur districts. It was followed by a more devastating 2<sup>nd</sup> phase of floods in August-September affecting 23 districts, marooning thousands of villages and inundating vast patches of agricultural land. In the 3<sup>rd</sup> phase the heavy downpour from 1<sup>st</sup> October to 10<sup>th</sup> October due to depression in the Bay of Bengal, caused floods which affected 13 districts.

#### 1.2.1 RAINFALL

South-west monsoon had arrived in the state a week behind schedule during 2003. Monsoon rainfall in June was 179.3 mm against the normal of 213.2 mm. which showed a deficiency of 15.9%. However, things started improving in the month of July. The average normal rainfall in July was 351.6 mm against which the state received 360.6 mm rainfall, showing a surplus of 2.7%. The actual rainfall in August up to the 25th of the month did not show any dramatic change. Things suddenly took a different turn when rains lashed out different part of the state towards the month-end. Incessant and heavy rains during the last week of August triggered the crisis. Under the influence of a depression in the Bay of Bengal, there was 146.3 mm rainfall during the period of 26th to 31st August. This pushed the August rainfall to 426.5 mm. which exceeds the normal rainfall by 27.1%.

Heavy to very heavy rainfall occurred in almost all parts of the coastal Orissa from 5<sup>th</sup> to 8<sup>th</sup> October 2003 due to depression over the Bay of Bengal. Table-1.2.1 shows the position of rainfall from July to October, district-wise.

#### DISTRICT-WISE RAINFALL From July to October

[Table-1.2.1]

The Mahanadi basin received heavy rainfall during 26<sup>th</sup>-27<sup>th</sup> August, 1<sup>st</sup>-2<sup>nd</sup> and 6<sup>th</sup>-7<sup>th</sup> September. During 26<sup>th</sup>-29<sup>th</sup> August, the districts Kalahandi, Bolangir, Bargarh, Sambalpur, Sonepur, Boudh and Nayagarh located in the catchments of the Mahanadi system received rainfall ranging from 114 mm to 346 mm. The maximum precipitation was in Jayapatna block of Kalahandi district, where if exceeded 400 mm on 27<sup>th</sup> August. The other parts of the state received normal to heavy rainfall during this period.

Due to heavy rainfall from 6th to 8th October 2003 the water level rose in the rivers Brahmani, Baitarani, Subarnarekha, Budhabalang, Vansadhara & Rushikulya for which floods occurred in these rivers, affecting the downstream areas of the 13 districts. The following districts received excessive rainfall during this period. The detail is shown in Table-1.2.1A below.

| SI.<br>No.       | District      | Rainfall in mm during<br>1st to 10th October (in mm.) |
|------------------|---------------|-------------------------------------------------------|
| 1                | Balasore      | 367.4                                                 |
| 2                | Bhadrak       | 480.8                                                 |
| 3                | Cuttack       | 285.5                                                 |
| 2<br>3<br>4<br>5 | Gajapati      | 338.9                                                 |

| 13               | Rayagada      | 179.8                                                 |

[Table-1.2.1A]

Heavy rains in Kalahandi and Bolangir districts from 26<sup>th</sup> to 28<sup>th</sup> August caused floods in the tributaries Tel, Suktel, Ong and Lanth which marked beginning of the crisis. Moreover, rains in the upper catchments worsened the situation, resulting in an inflow of 8.7 lakh cusec flood water to the reservoir on 30<sup>th</sup> Aug. It pushed the water level in Hirakud reservoir close to the Full Reservoir Level (FRL) of 630 ft. Water of the tribunals was added to the water, which the reservoir released. As more than 13 lakh cusec flood water passed through Mundali, it posed a serious threat to the entire deltaic region. River Mahanadi and its distributaries were in spate.

#### 1.2.2 RESERVOIR POSITION

July rainfall during 2003 had saturated the absorption capacity. Hence the additional inflow caused concern and beyond a point, water had to be released. As a result most of the rivers flowed above the danger levels at different gauge points. Table-1.2.2 and Table-1.2.2A indicate the inflow and outflow of water of Hirakud Reservoir and flow of water at Mundali respectively.

|          | HIRAKUD                 |                          |                       |                      |            |  |  |  |

| 04.09.03 | 10.49                           | 11.09.03 | 7.48              |

[Table-1.2.2A]

The high floods of August-September, 2003 were marked by high peaks, high volume and long duration. Compared to Flood-01, Flood-03 has been more severs. Both the floods lasted for 19 days each. However Flood-03 had been characterized by four peaks, where as Flood-01 reached three peaks. During 2003, Mahanadi system handled a volume of 40 billion Cumec of water as against 31 billion Cusec in 2001.

# 1.2.3 Water Level in Major Rivers

The water levels in different rivers during two phases of flood during September & October are given at Table-1.2.3 below. Although floods continued for a pretty long period, the peak values of water level in respect of different rivers is only indicated.

| River      | Gauge         | Warning | Danger | er Water Level |         |         | Highest | Year    |      |
|------------|---------------|---------|--------|----------------|---------|---------|---------|---------|------|
|            |               | Station | Level  | 1.09.03        | 2.09.03 | 7.10.03 | 8.10.03 | Reading |      |

| TOTAL              | 188329                        | 184788               |

[ Table - 2.4 ]

#### 2.5. AGRICULTURE (Floods-03)

| Crop Damage             | July-August | Aug-Sep         | October         |
|-------------------------|-------------|-----------------|-----------------|
| i) Crop Area Damaged    |             | 4.78 lakh hect. | 4.13 lakh hect. |
| ii) Estimated Crop loss |             | Rs.159.00 crore | Rs.73.00 crore  |

[ Table - 2.5 ]

Due to flood in September, 2003, 3.96 lakh hectare crop areas were submerged out of which 3.50 lakh hectares is paddy and 0.46 lakh hectare non-paddy crop. More than 50% crop loss anticipated in 2.37 lakh hectares of paddy area and 11,165 hectare non-paddy area.

Similarly during October, the paddy crop of 2.71 lakh hectare was affected. Out of this 1.35 lakh was affected more than 50%. Non-paddy of 61.962 hectare affected out of which 45697 hectare suffered 50% damage.

After crop cutting experiment, the State Govt. has declared 3206 villages both irrigated and non-irrigated of 65 blocks & 7 ULBs under 9 districts as having sustained crop loss of 50% and above due to high flood and heavy rain during the year 2003 kharif. The district-wise detail is at Annexure-I.

#### 2.6. DAMAGE TO INFRASTRUCTURE

ROADS (July-August-September)

Flood-03 had damaged the road communication network in the date. Extensive damage had been caused to major bridges and CD works in Angul, Bargarh, Bolangir, Boudh, Kalahandi, Sonepur and Kandhamal districts. In most of the districts, stretches of State Roads such as ODR, MDR & SHs and National Highways were critically damaged / breached. CD works were washed away at several locations.

Under primary sector, 1378 km of National Highways had damaged. Under secondary sector, 906 km of roads with 241 CD works were damaged. Also under tertiary sector - 3623 km of roads with 420 CD works were damaged.

**Details of Roads Damaged** 

| Department | No. of roads | Length in Km | Breaches occurred | CD works damaged |
|------------|--------------|--------------|-------------------|------------------|
| Works      | 467          | 4529         | 155               | 644              |

[Table-2.6]

#### 2.7. OCTOBER FLOODS

Heavy rains during 1st week of October and floods in Rushikulya, Vansadhara, Brahmani, Baitarani and other rivers had also caused extensive damage to the Rural road network (RD Department) and as well as to the Roads, Bridges, CD works of Works Department in Ganjam, Mayurbhanj, Bhadrak, Balasore, Keonjhar, Rayagada and Kendrapara districts. The detail damages are as follows.

| Nature                   | Departments |         |  |
|--------------------------|-------------|---------|--|
|                          | RD          | Works   |  |
| No. of Roads damaged     | 907         | 107     |  |
| Length in Km. Damaged    | 2368.56     | 1405.90 |  |
| Breaches occurred (Nos.) | 1151        |         |  |
| CD works damaged         | 1360        | 312     |  |

[Table-2.7]

# 2.8. GOVT. BUILDINGS (August-September)

Extensive damages had been caused to both residential and non-residential buildings. 8921 buildings had been damaged during September Flood-03. The Department-wise damaged buildings is mentioned below.

| ding         Non-Residential Building         Total           607         2023           1210         2011 |
|------------------------------------------------------------------------------------------------------------|
| 1210 2011                                                                                                  |

[Table-2.8]

### 2.9. SCHOOL BUILDINGS

Due to flood in September 1970 of school buildings were damaged. Out of which 165 primary / up schools were fully damaged.

Similarly the flood / heavy rain of October'03 had caused severe damages to 196 schools of 9 districts. The district-wise details are given below.

| District      |              | No. of School damaged |
|---------------|--------------|-----------------------|
| Ganjam        | ; <b>=</b> ; | 11                    |
| Gajapati      | 4            | 1                     |
| Cuttack       | -            | 6                     |
| Jagatsinghpur | -            | 40                    |
| Jajpur        | -            | 21                    |
| Kendrapara    |              | 77                    |
| Khordha       | -            | 3                     |
| Puri          | -            | 21                    |
| Rayagada      |              | 16                    |
| Total         | -            | 196                   |

[ Table - 2.9 ]

#### 2.10. POWER

Flood-03 had caused extensive damage in the power sector damages were mostly under 33 KV breakers etc. In most of the affected districts the poles and conductors were damaged. The 33/11 KV transformer and 33 KV transformers were failed.

#### 2.11. WATER SUPPLY

During 1st & 2nd phase flood, 130 piped water supply projects and 10,500 tube wells were damaged. Similarly Urban Water Supply system in 24 towns and Urban Water Projects in 35 towns were affected due to flood.

During 3<sup>rd</sup> phase in October-03 flood large no. of rural drinking water sources were inundated. Many Rural Water Supply Systems were disrupted. 45 piped water supply projects and 3168 tube wells were damaged. In case of urban water supply 15 water supply systems of 39 ULPs were affected.

#### 2.12. IRRIGATION WORKS

| Damage                             | Floods         |            |
|------------------------------------|----------------|------------|

#### 3.1. ADMINISTRATIVE

- Red Alert
- Alert Messages
- Weather Condition
- River level
- Reservoir Discharge
- Broadcast / Telecast of Washings
- Trigger Mechanism Activated
  - Control rooms round the clock
  - Govt. holidays cancelled
  - Men and material positioned
  - Check list and stock taking
  - Gateway districts alerted
  - Identification and mapping of inventories
- Vulnerable Districts Identified
- Senior Officers deputed to most affected districts
  - Food material
  - Transport & Boat
  - Other Materials
  - Health Care
  - Animal Care
  - Drinking Water
  - Army Co-ordination

#### 3.2. RESCUE

All the affected districts were alerted in advance about the discharge of flood water. People were warned through local administration. PRIs, Civil Society were engaged in rescue operation. 1374 boats were used in evacuation, rescue and transportation of medical team and relief materials. 191611 persons were evacuated to safer places. The position of boats deployed during Floods is given at Table-3.2& Table-3.2A respectively for two phases of flood.

[ Rescue and Relief operation by the Army ]

#### 3.3. ARMY & NAVY

10 columns of Army with 588 personnel, one Army medical teams with 29 boats, 21 Naval personnel including six diver groups, seven rescue teams of INS Chilka, three inflated rubber boats, 18 relief, rescue and medical teams of INS SAVITRI, Seven rescue teams of Indian Coast Guard, Paradeep and three units of Orissa Disaster Rapid Action Force (ODRAF) were engaged in rescue and relief operation. The details are as follows.

#### a. Army:

- 1. Location: Dist- Jagatsinghpur
  - 1 Army Column with 130 persons including officers and JCOs deployed at Tirtol.
  - 1 Army Group with 43 persons including officers and JCOs deployed at Jagatsinghpur.

#### 2. Location: Kendrapara

• 2 Army Group - 133 person including 1 Officer & 4 JCO and with 2 Boats at Marsaghai

#### 3. Location: Cuttack

- 2 Army Groups with 110 Army Personnel including officer and JCOs with 2 boats at Athagarh.
- 1 Army Group with 65 Army Personnel at Banki
- 2 Army Groups with 85 Army Personnel at Kantapada

#### 4. Location: Khordha

Place: Balipatana.

 1 army group with 22 Army Personnel & with 3 Boats (Sarakana, Jayadev, Bhingarpur and Benupur area)

#### b. Navy

#### 1. Location: Cuttack district

- 1 Naval team at Athagarh.
- 1 Naval team with 7 personnel at Banki
- 1 INS Chilika of 10 personnel at Niali
- 1 Naval team with 45 personnel at Kantapada
- 1 Naval team with 17 personnel at Nischintakoili

#### 2. Location: Kendrapara district

- 1 Navy team with 15 personnel at Korua
- 1 Naval team including 15 personnel and 2 doctors at Marshaghai.

#### c. Indian Coast Guard:

- 1. Location: Jagatsinghpur district Place: Tirtol, Biridi, Naugaon & Raghunathpur area.
  - 7 Rescue teams

#### d. ODRAF

- Cuttack Unit: One Group with 3 Boats is working in Banki & another group with 3 boats is working
  in Jagatsinghpur district.
- Koraput Unit: Unit with 5 boats is deployed at Mahakalpada & Derabis of Kendrapara district.
- Jharsuguda Unit: Unit is Operating in Sambalpur district.

#### e. NCC

Cuttack District: One NCC team at Niali.

#### f. OTHER:

- INS SAVITRI has arrived today in Paradeep Port with some Relief Team & Materials.
- · Having 3 IRB Boats
- 18 Relief, Rescue & Medical personnel.
- 4-5 Tons of Dry Food
- Special Commandos for Search & Rescue
- They are being deployed to different destinations.

#### 3.4. RELIEF

Evacuated persons were kept temporarily in 757 temporary shelters. They were provided with adequate quantity of dry food as well as cooked food through free kitchens at 425 centres. 1.14 lakh beneficiaries including old, infirm, destitute and children were covered through free kitchen.

Emergent relief materials in the shape of rice (13561.87 MT), flattened rice (3949.47 MT), jaggery (304.08 MT), Dal (32.0 MT) were provided to 40.95 lakh persons in the affected areas. 76500 nos. of polythene sheets & 650 nos. of tents were supplied to affected districts for temporary shelters.

#### 3.5. DRINKING WATER

Due to floods, supply of safe drinking water was seriously affected. Almost all the wells in the affected areas were infected. Efforts were made to supply portable drinking water through carriages, water tankers and poly packs. 142 mobile vans and 52 tankers were engaged to supply drinking water to the affected people. 383.00 lakh halogen / chlorine tablets were distributed among the flood affected people. 8278 tube wells and 27 pipe water supply units were restored. 12.08 lakh poly packs and 52000 jerry cans of drinking water were distributed. 85718 nos. of drinking water sources were disinfected.

#### 3.6. HEALTH & SANITATION

Adequate quantity of essential drugs like halogen tablets, antibiotics, paracetamol tablets, snake venom injection, bleaching powder were supplied to all affected districts. Doctors and paramedical teams were also deployed. The details are as under.

|   | Rescue mobilization                               |   |                  |

#### 3.7. ANIMAL CARE

13.82 lakh livestock comprising cattle, buffalo, sheep, goats, poultry birds were affected. The affected animals were shifted to safer places and were provided cattle feed. 3932.26 MT of concentrated cattle feed and 193.66 MT of rice bran were distributed. 476 no. of Veterinary health camp opened. Vaccines had been administered and essential drugs were distributed. The details are as follows.

| HSV     | * | 2.94 lakh |
|---------|---|-----------|
| BQV     | = | 1.20 lakh |
| Anthrax | × | 700       |
| FMD     | 8 | 3.81 lakh |
| PPR     | - | 3300      |

#### 3.8. EX-GRATIA ASSISTANCE

Ex-Gratia Assistance @ Rs.50,000/- was paid to the next of kin of the deceased persons died due to flood-03 & snake bite during flood-03. 93 persons died due to flood-03. An amount of Rs.50.10 lakh was placed at the disposal of Collectors for payment of Ex-Gratia assistance.

#### 3.9. HOUSE BUILDING ASSITANCE

House Building Assistance out of CRF / NCCF was provided to the affected people whose houses were damaged due to flood & heavy rain 2003. The affected people were paid at the following scale.

a) Fully damaged houses (maximum aid)

i) Pucca house

Rs.10,000/- per house

ii) Kachha house

Rs.6000/- per house

b) Severely damaged houses (maximum aid)

i) Pucca house

Rs.2000/- per house

ii) Kachha house

Rs.1200/- per house

c) Marginally damaged houses -

Rs.800/- per house

(Maximum aid)

After final assessment of house damage it was reported that 1.85 lakh houses were damaged. The district house damage statistics is at Annexure-III. An amount of Rs.2321.70 lakh was provided to all districts for distribution of HB assistances (as per scale fixed) to the beneficiaries.

Besides the HB Assistance, Tarpaulins & Tents were provided to the people for temporary shelter. The district wise distribution of Tarpaulin / Tents is given below at Table-3.9 & 3.9A.

Floods-2003 (August - September)

| SI.<br>No. | Name of<br>the District | Total No. of Polythene<br>sheets dispatched | Total No. of<br>Tents dispatched |  |
|------------|-------------------------|---------------------------------------------|----------------------------------|--|
| 1.         | Cuttack                 | 17500                                       | 100                              |  |

[Table-3.9A]

#### 3.10. CIVIL SOCIETY FLOOD RESPONSE

UN Agencies, INGOs, and many small and big local NGOs have participated in flood response activities, in the field of rescue and relief including food aid, immediate habitat restoration, health and sanitation, temporary shelter, etc. Their current focus of activities is laid on emergency health response activities. OSDMA has been coordinating the activities of UN Agencies, INGOs and NGOs at the state level. As requested, NGOs have been coordinating their efforts with concerned Block and District administrations. NGOs have been requested to spread evenly over the affected area so as to rule out duplication or overlapping of efforts; and ensure optimal and equitable utilisation of resources. OSDMA has made its best efforts to facilitate their participation in emergency response activities by helping them identify vulnerable locations and coordinating efforts with concerned authorities at state and district levels.

The largest NGO alliance at work is the one formed by the Indian Red Cross, Oxfam GB, Concern Worldwide, Orissa Disaster Mitigation Mission (ODMM), Catholic Relief Services (CRS), and Action Aid-India. The alliance has adopted Bilipada GP in Banki-Dompada Block for intensive relief and rehabilitation work through a local NGO, Banki Anchalika Adivasi Harijan Kalyan Parishad. Orissa Development Action Forum (ODAF), an alliance of 11 NGOs is separately engaged in relief activities.

Among UN Agencies, UNICEF and UNDP have provided relief aid through the Government. International NGOs such as Red Cross, CRS, CARE, Oxfam GB, LWS, Concern Worldwide, and Action Aid are involved in relief work through their local partners. CASA and EFICOR are working directly at the community level. The focus of international and local NGOs has been food relief, drinking water, emergency health and sanitation, and temporary shelter. Local and community based NGOs mobilised their volunteers to assist the Government in relief activities such as running free kitchens.

# 3.11. Relief Provisions by UN Agencies/ NGOs

Relief Kits: 29,000

Flattened Rice: 3484 Qtls Jaggery/Sugar: 521 Qtls

Cereal Powder: 45.55 Qtls

Rice: 5259 Qtls Dal: 2396 Qtls

High Cal. Biscuits: 20.4 Qtls

Biscuit packets: 127600

Child support kits: 4000

Halogen tabs: 1.50 Crore

ORS sachets: 7.79 Lakhs Bleaching powder: 2046 Qtls

Tarpaulin/Polythene: 75,616 sheets

Water containers: 27000

Free Kitchens: 150

Over 67 medical teams deployed

Over 48,000 patients treated

# 3.12. Emergency Health Response Activities by NGOs:

(Prepared on the basis of information provided by NGOs before 20th September, 2003)

# 3.15. Highlights of Flood Management -2003

The concept of disaster management has undergone a paradigm shift as the lessons learnt from Super Cyclone-99 opened new windows of understanding. The management of Floods 2001 set a new benchmark. In the managements of Floods 2003 some concepts have been fine tuned; certain methodologies have been validated once again. Yet some new beginnings have been made.

- Visit of the Head of the Govt. and Administration to the State Control Rooms provided orientation and involvement appropriate to the seriousness of the crisis.
- ✓ Immediate deputation of senior officers to affected districts with enough delegation of authority ensured decentralized approach.
- Reaching out to marooned population with emergent relief had been the most important goal which was achieved without any help from outside of the state as regards to materials or machineries.
- ✓ Army, Navy and Coast Guards including Orissa Disaster Rapid Action Force were pressed into service effectively.
- ✓ Effective Management was ensured using modern means of communication set up in the recent past.
- ✓ An optimal use of resources within the state had been the hallmark of Floods 2003.
- ✓ Synergetic efforts by various departments made a difference.
- ✓ The concept of 'Gate-Way District' was further fine tuned. The District administration of Balasore, Sambalpur, Mayurbhanj and Angul played major roles in mobilizing material support for the affected districts.
- Panchayati Raj Institutions played a key role in relief delivery.
- Daily prioritizing the problem locations and focusing on the worst hit areas and population was the highlight of flood management 2003.
- ✓ On timely submission of memorandum to GOI, assistance of Rs.104.43 crore and 3.00 lakh metric ton of food grain for food for work Programme were provided by the centre & are being utilized for restoration works.
- Transparency in relief management was ensured. Daily press briefing by the administration helped proper dissemination of information. Action taken on the feedbacks received from media served the affected population better.

Chapter-IV

Minor Calamities

[ People taking shelter in IAY houses ]

#### 4.1. LIGHTNING

Hundreds of people die every year due to lightning. It happens more in case of farmers/agricultural field workers who usually work outside and get struck by lightning. Table-4.1. shows the details district wise victim of lightning.

| SI.<br>No. | District                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Name of the Deceased                                 | Age | Village        | Block /<br>Tahasil /<br>Police Station | Date of<br>Death |

[Table-4.2]

15 districts namely Angul, Bargarh, Bhadrak, Cuttack, Dhenkanal, Ganjam, Jagatsinghpur, Jajpur, Kalahandi, Khordha, Mayurbhanj, Nayagarh, Sambalpur, Sonepur, Sundargarh were severely affected by heat wave.

### 4.3. METEOR FALLING

Date of Occurrence:

27.09.03

Time of Occurrence:

6.35 PM (Kendrapara District)

6.50 PM (Mayurbhanj District)

### Effects

### A. Kendrapara District

- A steady fluorescent flash of light followed by reverberating sound was observed for 10 seconds.
- ✓ No damage to life and property
- ✓ The large pieces of stone (5.7 kg. and 5.2 kg) were found from agricultural field in Suniti GP of Mahakalapada Block.

### B. Mayurbhanj District

- ✓ The meteor fell at village Sudusudia
- The house of Sri Umakanta Naik has been gutted fire and partly affected.
- ✓ Three persons namely Minati Naik, Malati Naik and Sri Harekrushna Behera were injured.
- Each injured person had been paid Rs.500/- from Red Cross.
- Fire relief of Rs.500.00 along with Dhoti & Saree had been provided to family of Sri Umakanta Naik.

### 4.4. FIRE ACCIDENTS

Fire accidents occur mostly during summer when the temperature is on the rise. The people of the State loose their houses and properties due to frequent occurrence of fire accidents. Deaths due to fire accidentsare as follows as reported by collectors.

| DEATH DUE TO  | FIRE .   | ACCIDENTS            |     |            |
|---------------|----------|----------------------|-----|------------|
| 1. Bhadrak    | -        | Dulamani Swain       | -   | 07.03.2004 |
|               |          | B. Rajeswari         | *   | 21.07.2003 |

### DISASTER MANAGEMENT INITIATIVES IN THE STATE

The following preventive, preparatory and mitigation measures have been taken up:

### 5.1. Construction of School Buildings:

- 254 High School buildings constructed out of CMRF.
- 83 High School buildings Audit out of MPLAD (Lok Sabha).
- 881 Primary & 262 High School buildings out of PMNRF constructed.
- Besides this, 802 high Schools and 487 Primary Schools constructed out of funds provided by MPLAD (Raiya Sabha), NFCR, other State Govts & NGOs.
- Besides, 3254 Primary School buildings to be constructed with DFID assistance.
- Out of this 1205 School buildings are planned for construction during 2003-04.
- These buildings are at different stages of progress.

### 5.2. Construction of Emergency Shelters:

70 multi-purpose cyclone shelters have been constructed and 27 more are under construction under the aegis of OSDMA besides some more by NGOs. Maintenance and management of these buildings is the responsibility of the community.

### 5.3. Strengthening Health Infrastructure:

201 health institutions have been improved with Chief Minister's Relief Fund.

### 5.4. Strengthening Farm-based Livelihoods

- Revival of Lift Irrigation Points:
   2555 LI Points have been revived with DFID support.
- Pedal Pumps:

Concrete Pedal Pumps have been installed in agricultural fields of 650 small and marginal farmers of Kujanga and Erasama Blocks of Jagatsinghpur District and Mahakalapada and Rajanagar Blocks of Kendrapara District with FAO Assistance.

### 5.5. Cyclone Reconstruction Activities

- Works Undertaken with WB Assistance:
  - 37 pkgs of road works of Works Dept, 37 pkgs of road works of RD Dept, 44 pkgs of road works of H&UD Dept, 315 pkgs of Irrigation works, 63 pkgs of Rural water Supply, 16 pkgs of Urban Water Supply and 500 Agro Service Centers have been completed.
- Works Undertaken Under CRF:
  - 4-urban roads, 4-irrigation works and 1-road works of Works Dept have been completed.

### 5.6. Strengthening Emergency Communication Network:

VHF network has been established linking District Collectors, BDOs, Tahasildars and some strategic locations under this initiative aimed at strengthening emergency communication systems. VHF base-stations have been installed at 230 locations; work is under progress at 173 more locations. 22 satellite phones have been provided to district administrations. List of VHF base stations & Satellite Phones are shown at Table-5.6

[Table-5.6]

### 5.7. Capacity Building:

- Disaster Risk Management Programme is being implemented under the aegis of the Union Home Ministry and supported by UNDP.
- It covers 145 blocks, 23234 villages, and 3005 GPs in 16 vulnerable districts.
- Under DRM programme, 16 District Disaster Management Committees, 142 Block Disaster Management Committees, 1873 GP Disaster Management Committees and 7222 Village Disaster Management Committees have been constituted.
- Disaster Management Plans have been prepared in 92 Blocks, 714 GPs and 7222 villages. 33290
  Panchayat functionaries have been have been provided orientation in disaster management at
  Panchayat level.
- 167 district level officers have been trained in Disaster Management at Gopabandhu Academy for Administration and 356 Panchayat Samiti & Zilla Parishad Members have been sensitized at SIRD.
- In addition to this, a series of training programmes at community and other levels are being carried out under SCRP.

### 5.8. Preparedness:

- Three units of Orissa Disaster Rapid Action Force (ODRAF) have been formed out of the State Armed Police at Jharsuguda, Koraput and Cuttack. Two more units are being set up at Chhatrapur and Balasore.
- After taking stock of the equipment required for road clearing, earthmoving and rescue operations available with various Govt. / Public sector / private agencies an assessment of further requirement has been made and quite a few equipment and machineries procured.
- Those equipments are kept at the disposal of the ODRAF, Fire Services and other agencies. The equipment list is shown at Table-5.8.
- A website containing database on resources available with different agencies has been developed under India Disaster Resource Network (IDRN). All the 30 districts have uploaded the information.
- Database on GIS platform is being developed to facilitate disaster management operations.
- 11 District Emergency Control Rooms have been improved. Action has already been taken for strengthening State control room and District Control Rooms of the remaining 19 districts. Construction of Emergency Operation Centers (EOCs) in 16 DRM Programme districts is being taken up with UNDP support.
- Drafts of State Disaster Management Policy, Disaster Management Plan and Disaster Management Bill of the State have been prepared and placed before the Government for approval.
- Sites have been selected at Lakhanpur (Jharsuguda District) and Kolanara (Rayagada District) by IMD to set up Earthquake Observatories. Equipments would be supplied by India Meteorological Department (IMD).

| SL. NO. | EQUIPMENTS                                 | QUANTITY |
|---------|--------------------------------------------|----------|
| 1.      | Hydraulic Crane 12 Ton capacity            | 8        |
| 2.      | TATA Truck- (Troop Carrier)-6 Ton capacity | 10       |
| 3.      | TATA Truck 12Ton capacity                  | 4        |

| 20. | Mahindra & Mahindra FJ-460-DP/4WD Ambulance.    | 1             |
| 21. | Life Buoy                                       | 10            |
| 22. | Life Jacket                                     | 10            |
| 23. | TATA SFC-407/31, AMBULANCE                      | 3             |
| 24. | G.I.Trunk-                                      | 2             |
| 25. | Wire Ropes & Slings                             | 8sets         |
| 27. | Lifting & Pulling Machine                       | 4             |
| 28. | Battery Chargers                                | 4             |
| 29. | Small Tools & Jack                              | 8 sets        |
| 30. | Nylon Rope                                      | 600 kg        |
| 31. | Hydraulic Tipper                                | 5             |
| 32. | Small rescue items like, rope, carabineer etc.  | 2 sets        |

[Table-5.8]

### 5.9. Community Initiatives under Social Capital Restoration Programme

- Implementation of Social Capital Restoration Programme (SCRP) through 30 NGOs has been started under the World Bank assisted OWRCP (Part-H), which aims at strengthening community cohesiveness through group based initiatives. SCRP focuses on farm and non-farm based livelihoods, women and PRI empowerment, disaster preparedness, emergency health preparedness and psychological care, micro-credit, work camps for building community assets, etc.
- A broad-based Committee on SCRP has been formed to monitor the process; grievance redressal mechanism has been instituted to maintain transparency.

### 5.10. Information, Education, and Communication

- For awareness generation, OSDMA is publishing two quarterly newsletters:
  - The Response in English and Prastuti O Punarnirman in Oriya
- IEC materials like posters, pamphlets, etc, being prepared and distributed in the vulnerable areas to provide safety tips to the people.

- OSDMA has published a book titled Bipatti, Biparjaya O Suraksha for school children.
- Database on GIS platform is being developed.
- Funds released for construction of Emergency Operation Centers in 16 districts.

### 5.11. Orissa Disaster Preparedness Day and the National Day for Disaster Reduction

- Like every year Orissa Disaster Preparedness Day and National Day for Disaster Reduction was observed on 29.10.03 throughout the State.
- Awards were given for preparation of best Disaster Management Plan at District, Block, GP and Village level.
- Disaster Management Plan of Balasore District was adjudged as the best plan.
- Award for exemplary act of bravery was given in the State level function.

### 5.12. Capacity Building

OSDMA is organizing workshops and training programmes in association with UN agencies, NGOs and State level training institutions for capacity building of the officials at State / District / Block level, Panchayati Raj Institutions and NGOs involved in disaster management. Gopabandhu Academy of Administration (GAA) and the State Institute of Rural Development (SIRD) are organizing trainings on disaster management. The following training programmes and workshops were organized: -

Workshop on Technological disaster was organized by Multi Disciplinary Center on Safety, Health & Environment (MDC on SHE) & OSDMA at Hotel Mayfair on April 28-29' 2003; Training of trainer disaster risk management 29-30, April'03 1st phase, 2-3, May'03 2nd phase, 24-25, May'03 3nd phase at SIRD jointly organized by OSDMA, UNDP & SIRD; A workshop on urban earthquake vulnerability reduction was held on 4th February 2004 in Bhubaneswar.

| Training Programme for district and block level trainers in 6 phases |
|----------------------------------------------------------------------|
| Training on HAM Radio                                                |
| Training on maintenance of cyclone shelters                          |
| Workshop in collaboration with LWS on CBDP                           |
| Workshop on Earthquake Mitigation in Orissa                          |
| Training of District/ Block/ GP disaster management committees       |

| Training of Teachers                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|

| 3906 volunteers (1265 Women) trained to prepare village Disaster Management Plan.                                                |
| 757 (164-Women) Block level trainers trained in First Aid Techniques through St. John Ambulance in 11 districts                  |
| 498 (64-Women) Block level trainers trained in Search & Rescue techniques through Civil Defence Organisation in 10 districts     |

Chapter-VI

Calamity Relief Fund & Utilization Certificate

[ Communication disrupted ]

[ Volunteers carrying relief ]

### 6.1. CALAMITY RELIEF FUND

Relief and mitigation expenditures on account of different calamities are met out of Calamity Relief Fund at the State level. The corpus for this fund is shared by State Government and Government of India at the ratio of 25: 75. The fund is administered by a committee headed by the Chief Secretary of the State as per the norms prescribed by Govt of India.

In the event of occurrence of a Calamity of Rare Severity the Govt. of India sanctions fund out of the NCCF according to the Gravity of the Impact of the Calamity. The GOI had provided Rs.104.43 crore & 3 lakh MT of food Grain during the year 2003-04 towards Flood relief and mitigation measures.

The Position of Fund both CRF and NCCF is shown at Table-6.1. & Table-6.1A.

### 6.4. CONCLUSION

Orissa experienced a major natural calamity in the form of floods during the year 2003. As many as 93 human lives were lost, 2956 animals perished and about 2 lakh residential houses were fully or partially damaged. Besides, a number of people succumbed to lightings, heat wave, fire accidents and boat tragedies. Relief and rehabilitation measures were taken to address the immediate needs of the affected people. Besides, long-term mitigation and preparedness initiativies were taken to create durable infrastructure and build a disaster-resilient community.
